

Tool 15.1 Considerations for Telemedicine and Virtual Care Algorithm

* All providers should be aware of current public health recommendations when providing care for their patients

Adapted with permission from: Ellis M, Mendez, Russell K. (2020). Preliminary clinical algorithm to optimize delivery of remote pediatric concussion care in Canada's North. *International Journal of Circumpolar Health* (published online October 22, 2020) <https://doi.org/10.1080/22423982.2020.1832390>
